## **DETAILED ACTION**

### ***Response to Arguments***

Examiner appreciates the election with traverse of the Group I directed to the apparatus claims. The Examiner; however, disagrees with the Applicant's argument regarding the processing. The applicant is claiming steps of grinding a wire, attaching a coil and a distal tip. The steps of processing are the very reason for the restriction requirement. In the restriction requirement of 2.6.03, Examiner noted the narrowing of the wire could be achieved by extruding the wire through a die to complete the forming step. Such forming steps are not properly classified in class 600/585. For this reason the Examiner classified the non-elected claims in class 29/402.19. Examiner wishes the Applicant would reconsider these claims in light of the aforementioned.

The restriction is hereby made final. The nonelected claims are withdrawn from consideration.

### ***Allowable Subject Matter***

1. Claims 12-27 are allowed.
2. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CAR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO

Art Unit: 3301

MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CAR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
